My favorite character was Clara because of her bravery

I really liked her title 'empress warrior wu' because it showed how much of a girl boss she was

I love the Asian elements in the story that will make all Asians become prouder of their heritage, be more confident and connect with their Asian identity! This book will especially encourage all Asian children growing up as minorities to be more curious of their Asian heritage and motivate them to learn and LOVE their native languages (Chinese, Korean, etc.)! Before reading this book, I never wore the jade bracelet that my grandma gave me because I thought it wasn't cool. But since finishing the book, now I can't stop wearing it! You will have to read the book to find out WHY ;)

★★★★★ **Asian cultural immersion**
